Suggest an amendment to Para 9.2 to clarify *Since there are no employers of significant size in the Parish* . The mineral extraction operations are significant employers in the Parish, as noted in the penultimate para on page 11.

Section 5 The Vision and Aims

Hills support the stated aims and in particular the balance that is struck in noting the importance of local employment to the economy. It is suggested that for clarity the wording is amended to reflect that employment opportunities in the Parish will also be supported.

To make the parish an attractive place to work, to support new, appropriate, employment options in the Parish and a sustainable place from which residents can both work and go to work.

Alternatively the wording from 11.3.3.3 could be used to provide continuity with the supporting text : *providing ample opportunity for business and appropriate housing development to take place, it endeavours to maintain balance between these two, sometimes conflicting, aspirations, so supporting the continuation of a vibrant and sustainable community*
