Hedgerow removal notice Validation Checklist

How to use the Validation Checklist

This validation checklist sets out the information you must submit with your application for hedgerow removal notice. We reserve the right to request further information that is reasonably required for the determination of the planning application.

Planning applications should be submitted via the [Planning Portal](https://www.planningportal.co.uk) (<https://www.planningportal.co.uk>) to enable the Council to validate and process applications efficiently. If this is not possible, the original application form and documentation should be posted to our office.

Once the application has been registered, any further supporting information must be emailed to us. If you are unsure of any checklist requirements, advice should be sought from the Council, prior to submitting your application.

Data protection statement: We will only use your personal information gathered for the specific purposes of your application/enquiry. We will not give information about you to anyone else or use information about you for any other purpose, unless the law allows us to. Further privacy information can be found on our website.

Please note:

- You can request at the point of submission for your details to be made confidential, but your address and agent's details will remain.
- If you are the applicant, your name and application site address will be in the public domain in perpetuity by virtue of them being part of the Decision Notice in the Public Register

Supporting documentation

All supporting documents should be uploaded to the Planning Portal at a maximum file size of 30mb, in separate named documents, as a PDF. All plans and drawings must include the paper size, address of the proposal, metric scale, be appropriately titled, and plans must show the direction of north.

Please ensure the content and detail of your supporting documentation is sufficient to assess and consult on your application. Many applications require further information following validation due to insufficient detail within documents. This can extend the timeframe required to make a decision on your application.

The need for, scale, scope, and level of detail for each assessment should be established as early in the development management process as possible. Technical assessments must be prepared by appropriately qualified persons.

If your proposal/site requires you to submit a document from the 'Local Requirements' list, but you do not believe you need to provide it for your application, please submit a written statement outlining the reasons why the document is not required. Failure to provide a reason why you have not submitted a relevant document may result in your application being invalidated.

All drawings should be supplied in a scalable format, ideally as PDF documents and not in draft format.
